

# UK

## ENERGY-EFFICIENT & BUDGET-FRIENDLY VERSATILE COLD STORAGE FOR DAILY USE

The KOMA UK is KOMA's cooling solution for the temporary storage of packaged products. This energy-efficient, multifunctional cold room is the closest equivalent to a 'general-purpose cold store' within the KOMA range. With its reliable climate control system, the UK is suitable for a wide variety of bakery products - from dough and semi-finished goods to pre-packaged bread and pastry items.
