

UVD

LONG-TERM STORAGE OF PACKAGED FROZEN PRODUCTS SMART STORAGE FREEZER, TAILORED TO YOUR NEEDS

The KOMA UVD is the ideal storage freezer for deep-frozen, packaged products requiring long-term preservation. Often referred to as a "standard storage freezer" - but with the trusted quality of KOMA. Each UVD is fully tailored to your production process. Thanks to smart engineering and the proven KOMA TLR formula, the cooling capacity is precisely matched to your needs. This ensures maximum performance with minimal energy consumption.
